About Veradermics, Inc.
Veradermics is a dermatologist-founded, late clinical-stage biopharmaceutical company focused on developing innovative therapeutics to address pervasive treatment challenges in highly prevalent aesthetic and dermatological conditions. Veradermics aims to develop a focused portfolio of aesthetic dermatology product candidates targeting high-prevalence dermatologic conditions, with potential selective development of medical dermatology product candidates. Its lead program, VDPHL01, is being developed as an oral, non-hormonal treatment for men and women with pattern hair loss, to reduce the barriers to wide adoption of chronic hair loss therapy and potentially transform pattern hair loss treatment. VDPHL01 is an oral, extended-release proprietary formulation of minoxidil, a proven hair growth agent, designed to maximize minoxidil's impact on hair restoration while minimizing the risk of cardiac activity.
